**Subject:** Preview - Power to the Grid

Dear Jessica,

Top industry challenges that utilities, project developers, and industrial consumers face include grid events that disrupt power, integration of additional solar and wind energy generation, and improvement of energy efficiency.

How can these issues be addressed with ultracapacitor energy storage? Click below for an engaging visual summary of how Maxwell's ultracapacitor solutions address these challenges.

# Power to the Grid – An Introduction to Maxwell's Grid Energy Storage Systems (GESS)
